

哪些人不适合摄取?

01

* 孕妇及正哺乳的妇女。

02

* 患有肝脏疾病或家族有肝脏病史的人。

03

* 过去6个星期内曾接受器官移植或进行大型手术。

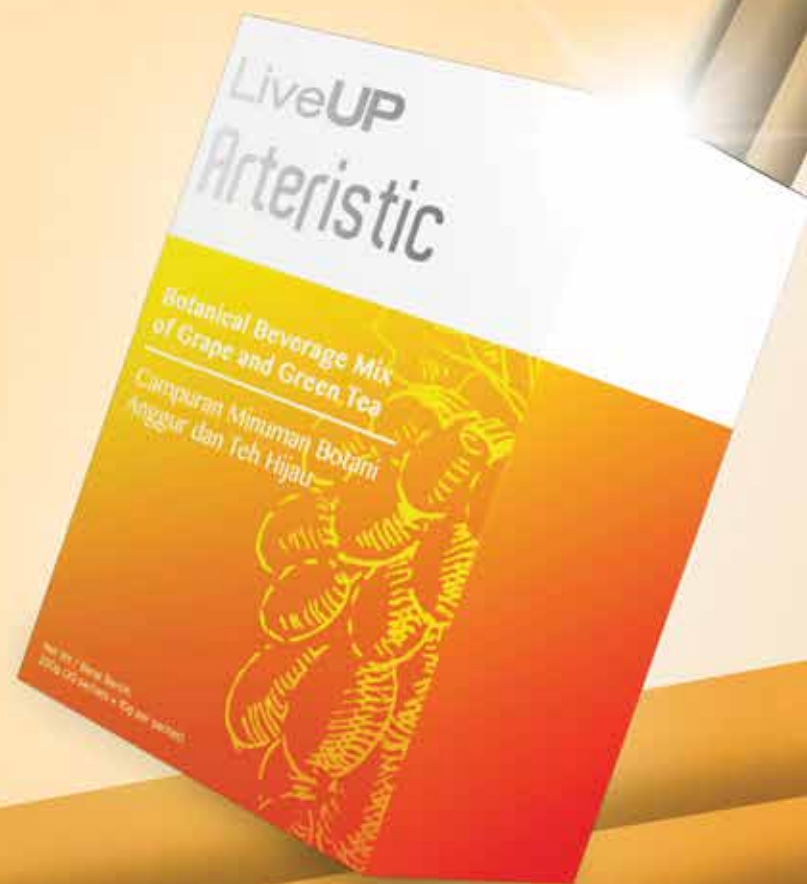

04

* 长期服食降胆固醇药物的人。
若想摄取应先咨询营养师等专业人士。

轻松管理胆固醇
让心脏永葆活力

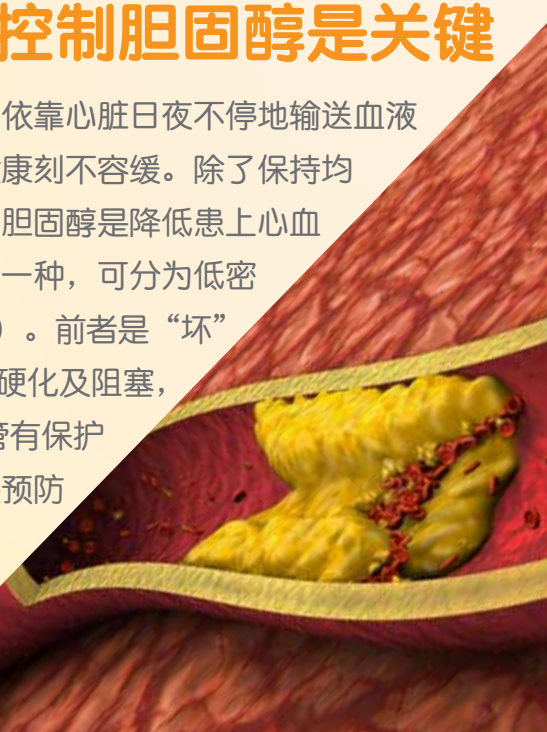

健康头号杀手——心血管疾病

根据世界卫生组织统计，心血管疾病是全世界的第一号健康杀手，每年大约有超过1700万人死于心血管疾病，而高血脂就是心血管疾病的隐形杀手。高血脂的形成是因血液中的脂肪(胆固醇及三酸甘油酯)在体内堆积，无法正常代谢。由于现代人嗜好高脂、高糖、高盐饮食，加上缺乏运动，吸烟饮酒及不规律的生活作息，导致越来越多人患上高血脂，进而诱发各种致命性心血管疾，其中最为常见的是冠心病和心肌梗塞，且发病有年轻化趋势。

预防心血管疾病，控制胆固醇是关键

心脏是生命的驱动器。我们的生命要依靠心脏日夜不停地输送血液和营养才得以维持，所以呵护心脏健康刻不容缓。除了保持均衡膳食、规律作息及定时运动，控制胆固醇是降低患上心血管疾病风险的关键。胆固醇是血脂的一种，可分为低密度胆固醇(LDL)及高密度胆固醇(HDL)。前者是“坏”胆固醇，一旦指数偏高便会造动脉硬化及阻塞，后者则属“好”的胆固醇，对心血管有保护作用，因此对“坏”胆固醇的控制是预防心血管疾病的重要防线。

ARTERISTIC 守护您的“心”

由SKG WORLD独家研发的ARTERISTIC护心保健品，可以帮助降低坏胆固醇与三酸甘油酯、软化血管、强化心肌的功能，以此达到预防中风、改善血液循环及预防心脏疾病的效果。

功效一

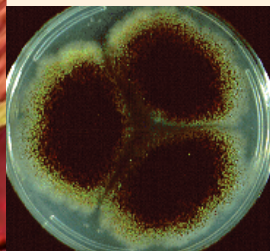

降低坏胆固醇与三酸甘油酯

主要成份:

穆库尔树脂

源自印度的天然树脂提取物，能有效降低坏胆固醇与三酸甘油酯，达到预防冠状动脉疾病的作用。

Kionutrime-Cs

具有强力吸附油脂的功效，可吸附比自体重量超过600倍的脂肪，预防脂肪贮存在肝脏与肌肉中，降低三酸甘油酯水平。

功效二 软化血管

蕴含丰富的水溶性抗氧化物质—原花青素具有抑制低密度脂蛋白的氧化，减少血栓形成，预防心脏病。

有助于软化及修复血管，强化毛细血管、动脉与静脉血管，从而促进血液循环。

从绿茶中提取的抗氧化活性成份—茶多酚可以清除体内的自由基、防止脂质氧化、有助调节血脂，预防动脉硬化。

主要成份:

功效三 强化心肌功能

有助于维持心血管健康，比如改善胸痛，同时还能有效地燃烧体内脂肪并转化成人体所需的能量，以助强化全身肌肉。

具有强大的抗氧化作用，能保护机体细胞免受自由基的破坏以及有益于强化心肌新陈代谢功能，强韧心肌，保护心血管。

服用方式

胆固醇指数超标的人：
每日一包，以室温水冲泡。

胆固醇指数理想的人：
隔天服用一包，以室温水冲泡。

The product is not suitable for consumption for the following:

01

* Pregnant and/or breastfeeding women

02

* Individuals with liver disease or a family history of liver disease

03

* Individuals who have received an organ transplant or a major surgery in the past 6 weeks

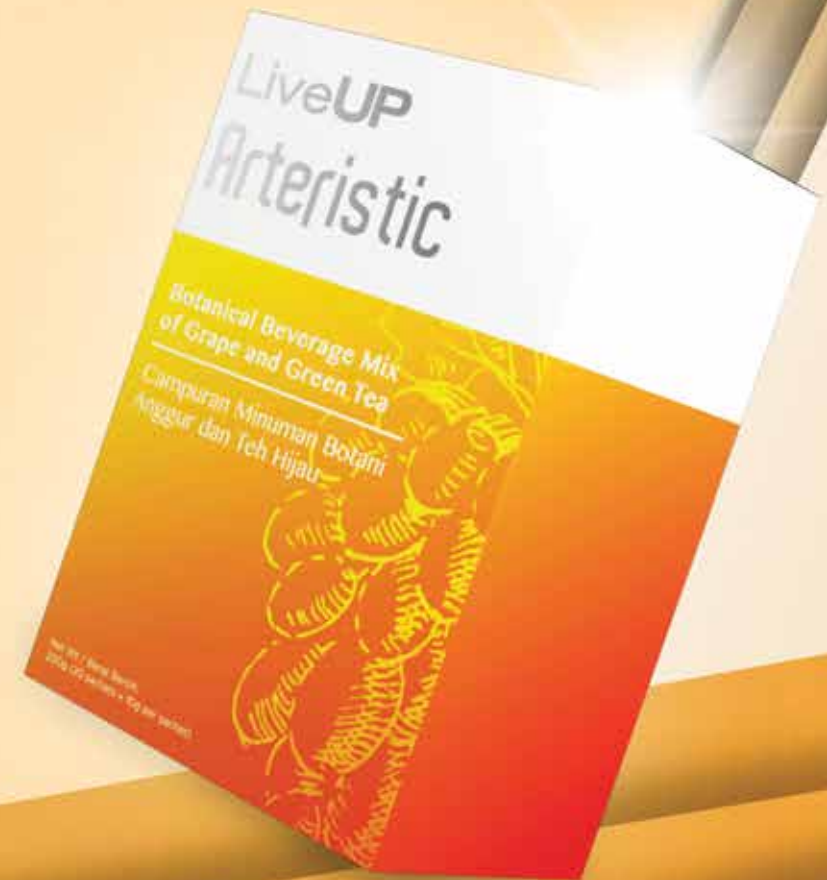

04

* Individuals who are long-term consumers of cholesterol-lowering prescriptions. Prior to taking ARTERISTIC, we recommend consulting your dietician or other medical professionals.

Manage Your Cholesterol
For A Healthy Heart

THE NUMBER ONE KILLER OF HEALTH CARDIOVASCULAR DISEASE

Cardiovascular disease is the leading cause of deaths in the world base on research presented by the World Health Organization (WHO), with more than 17 million people dying from cardiovascular disease each year. High levels of blood lipids (hyperlipemia) are the invisible culprits that contribute to the increased risk of cardiovascular disease, the most common of which are coronary heart disease and heart attacks. Research has indicated that poor eating and lifestyle habits are the primary causes for the staggering rise in individuals suffering from hyperlipidemia, with young adults increasingly being diagnosed with the disease as well.

KEEPING YOUR CHOLESTEROL UNDER CONTROL IS THE KEY

Our heart acts as a pump to circulate blood throughout our bodies, delivering nutrients to every cell. It works 24 hours a day to keep us alive, hence keep our heart healthy is essential for a vibrant and healthy life. Aside from having a balanced diet, exercise and rest, keeping your cholesterol levels under tabs is key to reducing your risk of cardiovascular disease. Cholesterol is a blood lipid that can be split into two forms – Low Density Lipoproteins (LDL), and High Density Lipoproteins (HDL).

LDL is often acknowledged as the 'bad cholesterol', and once these cholesterol levels reach a high on the index, it will cause blockage and hardening of the arteries. HDL is known as the 'good cholesterol', as it has protective properties against cardiovascular disease. Hence, keeping the bad cholesterol under control is an important line of defence against cardiovascular diseases.

ARTERISTIC SAFEGUARDS YOUR HEART

Developed exclusively by **SKG WORLD**, **ARTERISTIC** helps to reduce the effects of bad cholesterol and triglycerides, all while softening the blood vessels and strengthening the cardiac muscles, thus preventing strokes, heart disease and improving blood circulation.

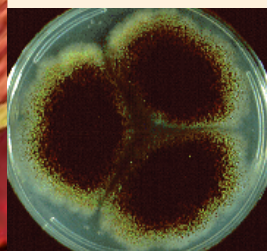

EFFECT 1: REDUCES EFFECTS OF BAD CHOLESTEROL AND TRIGLYCERIDES

Primary ingredients:

Commiphora Mukul

Sourced from India, these natural resin extracts are shown to be able to effectively reduce bad cholesterol and triglycerides to prevent coronary heart disease.

Kionutrime-Cs

Kionutrime-Cs is an effective fat binder that is capable of binding nearly 600 times its own weight in fat. It also prevents fat from being stored in the liver and muscles, while reducing the levels of triglycerides.

PRIMARY INGREDIENTS:

EFFECT 2: SOFTENS THE BLOOD VESSELS

Pine Bark Extract

These extracts contain a rich, water soluble antioxidant known as Proanthocyanidins, which inhibits the oxidation of LDLs, reducing thrombosis and preventing heart disease.

Grape Seed Extract/OPC

Softens and repairs blood vessels while strengthening the capillaries, arteries and veins and promoting blood circulation.

Green Tea Extract

Green tea polyphenols, which are antioxidants that are abundant in green tea, are able to reduce the amount of free radicals in the body, prevent lipid oxidation, regulates the blood lipid levels, and prevents the hardening of the arteries.

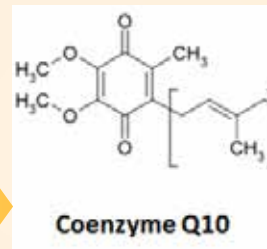

PRIMARY INGREDIENTS:

EFFECT 3: STRENGTHENS CARDIAC MUSCLES

L-Carnitine Fumarate

Maintains cardiovascular health, such as alleviating chest pains, while effectively burning body fat and converting it into energy required for the body to function optimally and to strengthen muscles throughout.

Coenzyme Q10

Coenzyme Q-10

Its powerful antioxidant effects protects the body's cells from free radical damage, and is able to strengthen the heart's metabolic processes and muscles, thereby protecting cardiovascular health.

CONSUMPTION METHODS

For individuals with high cholesterol levels (exceeds the recommended index):
one pack a day, mixed with room temperature water

For individuals with optimal cholesterol levels:
a pack every other day, mixed with room temperature water
