

LiveUP MICRON

超级抗氧化剂

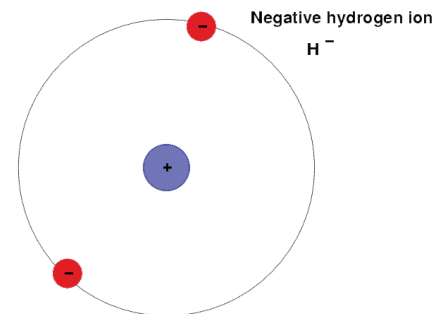

21世纪抗老 · 抗氧 · 新趋势

LiveUP MICRON

世界卫生组织说明，人类的身体问题90%都是由自由基对细胞组织造成的损坏所引起！身体组织必须靠呼吸氧气来进行新陈代谢，但在氧化的过程中，会有2~3%的氧气变成自由基，而当自由基过量时，就会加速身体的老化产生文明病，人类实在躲不过自由基对身体所造成的伤害。

自由基产生的因素大致如下：

身体里的自由基因失去一个电子，一直都呈现着不稳定的状态，它在细胞内破坏DNA并到处抢夺电子，长期下来容易促使人体产生慢性病，而唯有够小的负氢离子才能顺利通过人体细胞膜间缝并改善这个状态。

Micron由日本教授土屋雅彦，使用最尖端科技研制而成。Micron中的负氢离子是宇宙中最小的物质。负氢离子能够把电子丢给自由基，降低细胞内因自由基缺乏电子、在不断抢夺电子的情况下对身体所造成的伤害。一旦两者结合变成了水，便可排出体外，自由基不仅变少，身体也开始健康！

M I C R O N

独家配方的好处及作用：

逆转氧化及老化：

有助于改善身体代谢与慢性退化问题

提升保健品功能：

最小和最易被身体吸收的抗氧化物质，加快细胞新陈代谢作用，增强细胞的修复能力，更有效发挥保护人体细胞的作用。

扫除体内自由基：

启动全身细胞自愈功能—增强免疫力、延缓衰老、改善血糖值、加强呼吸系统、肝脏功能、强化身体关节及改善头痛等问题。

世界排名第一的超级抗氧化剂：

抗氧化功能冠绝所有已知抗氧化剂

LiveUP

M I C R O N

服用和使用指南：

一天服用一包 Micron，每次加入 750ml 温水冲泡，即可饮用，亦可同步搭配任何食物或饮料享用。欲清洗蔬果残余农药，加入一包Micron于水里洗净蔬果即可。

LiveUP MICRON

Ultra Antioxidant Essence

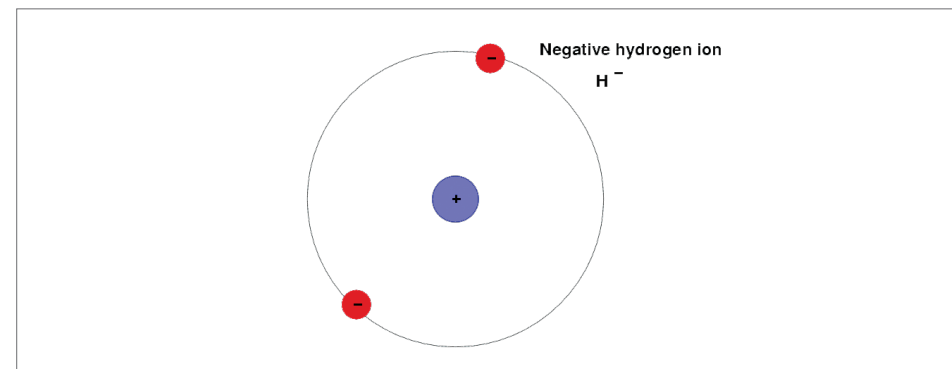

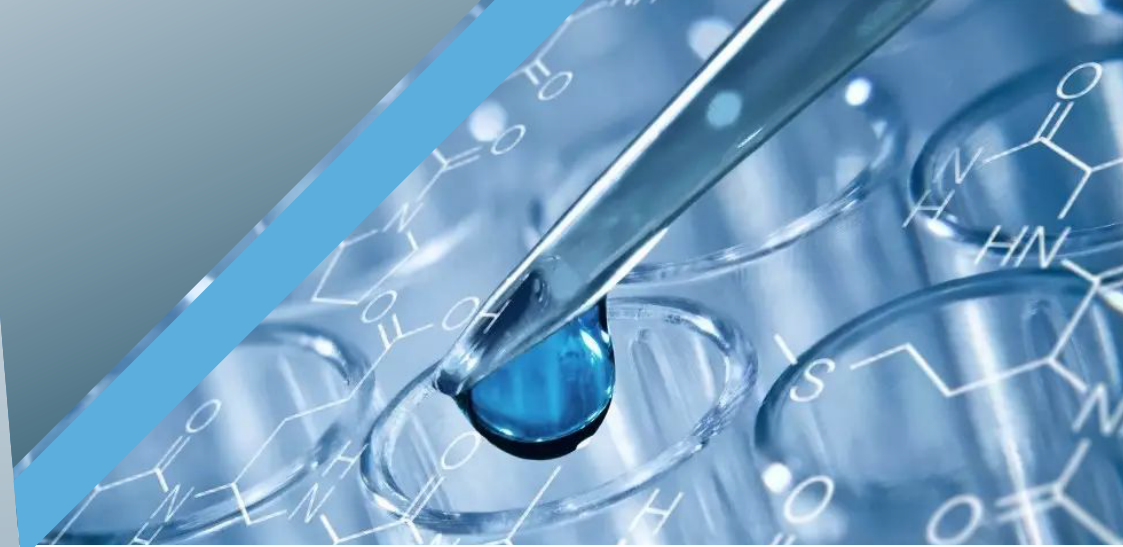

The 21st Century Antioxidants and
Anti-Aging Breakthrough

LiveUP MICRON

According to the World Health Organization (WHO), 90% of the health issues we suffer from are caused by free radicals. The human body requires oxygen to maintain the metabolic processes, and free radicals are produced during cell oxidation. When the amount of errant free radicals within the body increases, it causes cell damage due to oxidative stress, thus accelerating aging and our vulnerability to various diseases.

Causes Of Free Radical Production:

When a free radical in the body loses an electron, it becomes extremely unstable and spurs a chain reaction. It corrupts the cells' genetic DNA, and steals electrons from other molecules, and this has an adverse, long-term effect on our health as this causes our bodies to become increasingly prone to developing chronic diseases. The incredibly tiny size of negative hydrogen ions are able to penetrate into the cell membrane, which can help neutralize free radicals effectively, thus helping to reduce the development of chronic disease.

Micron is developed by Japanese professor Tsuchiya Masahiko with cutting-edge technology. The negative hydrogen ions found within Micron are the smallest known substances in the universe, and they are able to transfer electrons to highly-reactive free radicals in order to reduce the cell damage caused by the oxidative stresses of its continuous electron-stealing reactions. Once a free radical combines with a negative hydrogen ion, it forms water, which is not only easily excreted by the body but also reduces the amount of free radicals, thus improving our health.

The Benefits Of SKG World's Exclusive Formula-Micron Include:

Reverses the Effects of Oxidation & Aging:

Helps improve the body's metabolism and slows cell degeneration.

Promotes Holistic Well-Being:

As negative hydrogen ions are the smallest and most easily absorbed antioxidants by the body, it accelerates and enhances cell metabolism and regeneration, effectively protecting our cells and overall health.

Removes Free Radicals:

Micron initiates the body's innate self-healing functions – enhances immunity, delays aging, balances blood sugar levels, strengthens the respiratory system, liver & joints, improves headaches and other health concerns.

World's No.1 Super Antioxidant:

Micron's antioxidative properties triumphs all other known antioxidants.

Usage Instructions:

Consume a pack of **Micron** daily. Add **750ml** of warm water to the product and mix well. It can be enjoyed as a beverage on its own, or consumed with other foods or drinks. To clean the residual pesticides off fruits and vegetables, add a pack of **Micron** to water and rinse your fruits and vegetables in the solution.
