

LiveUP PLUS MINUS

让你拥有世界上最好的医生
-免疫系统

LiveUP
PLUS MINUS

人体与生俱来就拥有一个世界上最好的医生－免疫系统。当免疫系统正常运作时，它扮演一个强大的防线，能有效抵抗大多数的疾病。免疫能力的高低直接关联到人体生病与否。然而随着生活水平的提高，现代人的疾病发病率也随之升高，免疫力下降的同时，每天处于紧张、疲劳的生活之中，时刻面临流感等各种类型的流行性病毒威胁，这些都是导致现代人容易引起各种疾病的主要原因。

自然界“抗氧化之王” — 虾青素

Plus Minus以自然界“抗氧化之王”虾青素为主，结合10种超级抗氧化及提升自体免疫力成分的超级食品，其功效能够让每个人都回到免疫系统最佳的状态。

虾青素（英语：Astaxanthin，又称虾红素），是类胡萝卜素的一种，它也能帮助抗衰老和预防心脑血管疾病。虾青素的抗氧化比传统维生素C、维生素E、辅酶Q10都还要高。

人体的衰老，主要是由于自由基所造成的氧化所至。而红球藻萃取物特殊的分子构造，可以穿越人体细胞外壁，直接清除细胞内的自由基，增强细胞再生能力，维持人体机能平衡和减少衰老细胞的堆积，由内而外保护细胞和DNA健康。

PLUS MINUS 其它成分

白木耳

胶原蛋白

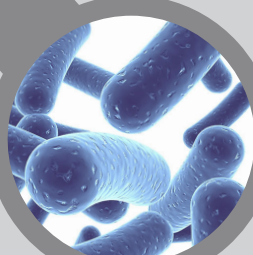

鲨鱼软骨

海洋壳粉

益生菌

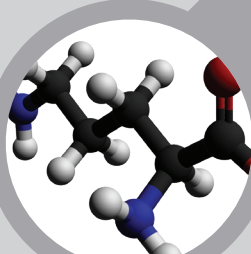

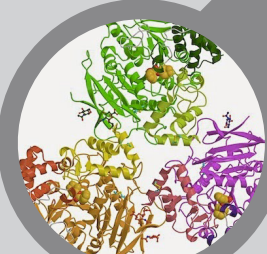

维生素

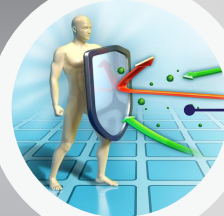

酵素

牛奶肽

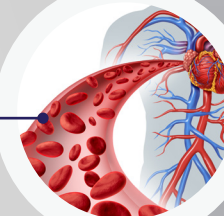

精氨酸和
谷氨酰胺

PLUS MINUS 独一无二的主要功效

增强人体免疫系统及抵抗力

提供所有人体必需营
养素，促进循环系统

抵抗人体免受自由基，
病毒及有害病原体的侵害

服用指南

每日将一包Plus Minus加入100ml的清水中
冲泡服用即可。一天服用2包（早晚各一包）。

LiveUP PLUS MINUS

**THE WORLD'S BEST DOCTOR
OUR BODY'S OWN IMMUNE SYSTEM**

LiveUP PLUS MINUS

We are gifted naturally with the world's best doctor – our body's own immune system. A properly functioning immune system is the best line of defense as it keeps most diseases at bay. A strong and healthy immune system is crucial to maintaining one's health because of its close relationship with the person's physical condition.

The rise in living standards has also significantly increased the occurrence of sickness amongst modern city residents. The combination of a weakened immune system, stress, fatigue, and the constant exposure to common viruses such as the flu, explains why people fall ill easily in this day and age.

Nature's "King of Antioxidants" – Astaxanthin

At the core of Plus Minus is astaxanthin, a superfood combined with 10 ingredients. It features antioxidants and immune-system strengthening capabilities to restore one's immune system.

Astaxanthin is a type of carotene from the carrot family, a natural antioxidant agent that delivers anti-aging, as well as heart disease prevention capabilities. Its anti-oxidation capabilities surpasses those of traditional vitamin C, vitamin E, and coenzyme Q10.

When one's body starts to show signs of aging, it is mainly due to oxidation caused by free radicals.

The unique molecular structure of Haematococcus algae extract in Plus Minus enables it to work efficiently at a cellular level. It helps to fight free radicals, promote cell regeneration, maintain balance of bodily functions, reduce the accumulation of aging cells, and to protect healthy cells.

PLUS MINUS other ingredients
