TINTED SUNSCREEN

Living in a bustling city is a promise of concrete jungles, charismatic energy, and a seamlessly never-ending list of things to do. But be aware as what you see may only be skin deep. The unseen threat of UV rays and urban pollution are constantly damaging your skin and often lead to signs of aging such as dark spots, fine lines, dullness, and dryness. That means making sure you're well protected from these harmful elements is a crucial part of your skincare routine and it all begins with protection against the sun. Perfect Defence Tinted Sunscreen SPF 30 PA+++ is an anti-aging sunscreen with natural anti-stress protective factor Ectoin and 7-DHC which can be converted into vitamin D3,

a key element to help brighten skin tone as well as moisturizing skin, blocking UVA / UVB, visible light (blue light), and infrared rays, providing a comprehensive boost to improve the skin's self-defense. Apply it every morning before heading out and the sunscreen will naturally improve your complexion while forming a protective layer on the skin's surface, protecting and retaining moisture in the skin giving it a smooth touch. So, go on out and enjoy a worry-free day out in the sun, we've got you covered!
