水漾保湿护肤系列

层层滋养 尽享水润呵护

 SKGworld

你的肌肤每天都摄取足够水分吗？

水分是打造无暇美肌的第一要素。我们的皮肤无时无刻与外界接触，长时间暴露在空调、日光暴晒以及空气污染的环境下，都会造成肌肤水分流失。除了环境因素的影响，皮肤随着年龄的增长细胞机能开始老化，导致其保湿作用及屏障功能逐渐减弱，肌肤表层的天然保湿因子也慢慢地流失。肌肤一旦缺水，女人的天敌——皱纹便会随之而来，皮肤也变得粗糙无光，松弛下垂，尽显老态。

CharmUP
WATER SOURCE

缺水是肌肤问题的根源。CHARM UP运用创新技术MossCellTec™，研发出water source水漾保湿护肤系列，致力为女性肌肤带来更持久及高效的保湿滋润作用，轻松解决肌肤的缺水状况。

MossCellTec™技术透过小立碗藓原丝体的培养，以助增强皮肤细胞的复原力，从而提升皮肤适应环境及气候变化的能力。此系列产品均从苔藓植物萃取其精华作为核心成份。作为地球上最古老的植物之一，苔藓萃取物兼具卓越的“吸水”与“锁水”特性，由内重筑肌肤天然保湿屏障，加强肌肤天然储水能力，牢牢锁住肌肤内部水份，进而改善肌肤干燥暗淡、缺乏弹性等困扰，提升肌肤滋润度，还原肌肤水嫩莹润，让您远离岁月侵蚀。

保湿之旅

WATER SOURCE HYDRATING TONER 保湿柔肤水

Water Source保湿柔肤水具有舒缓肌肤及柔软肌肤角质层的功效，帮助肌肤更好地吸收后续保养品的营养成分。

这款保湿型柔肤水，蕴含极强的天然保湿因子透明质酸钠，能帮助肌肤汲取大量的水分，淡化皱纹和细纹。作为天然氨基酸保湿剂的甜菜碱，可提供持久保湿及保护细胞膜作用、维持水分平衡，立即舒缓肌肤脱水问题。红藻提取物则有效锁住水分，使肌肤一整天保持水嫩感觉。

主要成份：MossCell Tec™、甜菜碱、透明质酸钠、红藻提取物。

使用方法：将保湿柔肤水浸透于化妆棉，由颈部下端向上抹至脸部。每日早晚各一次。

WATER SOURCE HYDRATING SERUM 保湿精华液

Water Source保湿精华液质地轻盈水透，能瞬间轻易被肌肤吸收，有效地解决肌肤缺水现象如干燥、暗沉、毛孔粗大及细纹滋生等等。

融汇甜菜碱、红藻提取物及多种水果提取物如西瓜提取，苹果提取及兵豆果提取，能为肌肤注入丰富营养、帮助增强皮肤细胞的锁水功能，为肌肤带来立即舒缓与保湿作用，进而改善粗糙肤质及抚平细纹。此外，还蕴含保湿肌肤的重要物质——透明质酸钠，可透过帮助肌肤吸取大量的水分，淡化皱纹和细纹。

主要成份：MossCell Tec™、甜菜碱、综合水果提取物、红藻提取物、透明质酸钠。

使用方法：将精华液涂抹于脸部和颈部，轻轻按摩，让其充分吸收。每日早晚洁面后使用。

WATER SOURCE HYDRATING MOISTURIZER 保湿润肤霜

Water Source保湿润肤霜给予肌肤强度保湿，可长时间维持肌肤的水润度，使肌肤全天候丰盈滋润。轻盈如纱的质地易于肌肤吸收，滋润且不油腻，同时还有效帮助肌肤抵御紫外线UVA和UVB，防止皮肤皱纹提早生成。

甜菜碱独特的保湿机理功能，有助调节细胞的水分平衡，发挥持久的保湿效果以及改善干燥脆弱的肌肤屏障。乙酰壳糖胺成分及柑橘皮提取物则可赋予肌肤盈润的保湿效果，同时提高肌肤的紧实度和弹性。

主要成份：MossCell Tec™、甜菜碱、柑橘皮提取物、乙酰壳糖胺。
使用方法：将润肤霜涂抹于脸部、颈部和前胸部位，由下至上轻轻按摩。
每日早晚各一次。

WATER SOURCE HYDRATING DEEP PORE SCRUB 深层洁净磨砂膏

Water Source深层洁净磨砂膏蕴含天然核桃壳粒子，能吸附毛孔中的污垢和油脂、去除黑头及老化角质，进而帮助提亮和均匀肤色，焕发透亮美肌。这款深层洁净磨砂膏还添加了保湿成份，洁净肌肤的同时滋润肌肤，使肌肤在磨砂后仍感觉柔嫩及不紧绷。

添加了丰富的橄榄油酸酯，其所含的多种维生素可以给皮肤带来持久保湿滋润效果，尤其对干燥及敏感肤质有显著的润肤功效。此外，它也具有丰富油脂的乳木果油，能保湿效果加倍。

主要成份：MossCell Tec™、橄榄油酯、乳木果油。
使用方法：先润湿脸部，用指尖将磨砂膏轻柔涂抹于全脸，避开眼周部位。
最后，用清水冲洗即可，建议一周使用2至3次。

WATER SOURCE HYDRATING SLEEPING MASK 保湿睡眠面膜

Water Source保湿睡眠面膜采用高端的透明质酸微囊科技，将百万分子量的透明质酸压缩在微小包裹中，直达真皮层并在12小时内逐步释放保湿因子，持续滋润肌底及修复皮肤，充分补充肌肤一整天流失的水分，让肌肤在清晨苏醒时呈现水润活力。

天然保湿因子透明质酸钠，能在体内锁住自身重量1000倍的水分，为胶原蛋白和弹力纤维的合成提供充足的水分及养分，从而淡化皱纹，缩小毛孔。此外，保湿面膜所含的综合水果提取物也能进一步的强化皮肤天然保湿屏障，提升肌肤对水份及营养的吸收，给予肌肤瞬间保湿效果。另一主要成份糖角鲨烷，会在皮肤层形成一层天然保护膜，发挥润肤作用，让肌肤重拾柔嫩顺滑。

主要成份：H2 Zeta 科技，透明质酸微囊科技，透明质酸钠、综合水果提取物、糖角鲨烷。
使用方法：睡前于脸部及颈部涂抹厚厚一层保湿面膜，隔天醒来用清水清洗即可。建议每周使用2至3次，若肌肤严重缺水也可每天使用。

Nourish your skin to enrich
its natural glow

 **SKG**world

Does Your Skin Receive Adequate Hydration Every Day?

Moisture is key in creating a flawless-looking complexion. Our skin's constant contact with harsh surroundings, such as air conditioning, sunlight and air pollution causes the loss of water. In addition to the damaging influence of these environmental factors, our skin ages as we mature, its moisturising and barrier functions gradually weakening and depleting our skin's natural hydration. Once the skin is dehydrated, its natural enemy - wrinkles, will follow, and our skin turned dull, rough and sagging.

CharmUP

WATER SOURCE

Dehydration is the root cause of skin problems. By utilising the innovative MossCellTec™ technology, CHARM UP formulated WATER SOURCE Skin Care Series. This series is designed to give our skin a more effective and longer-lasting moisturising effect, providing a simple way to keep skin hydrated and moisturized all day long.

MossCellTec™ technology enhances the skin's ability to adapt to the environment and climate change with the cultivating of Physcomitrella patens (spread moss) by reinforcing skin cell resilience. The core ingredient in this series of products is extracted from bryophytes (moss). As one of the oldest living plants on our planet, the moss extract has a combination of excellent "water absorption" and "water retention" properties to reinforce the skin's natural moisturizing barrier, strengthen the skin's natural moisture retention capacity, and firmly lock-in the skin's moisture. It will improve the dryness and dullness of the skin, loss of elasticity, as well as increase skin's hydration level, restoring suppleness and radiance while keeping away the signs of ageing.

Innovative
MossCellTec™
Technology
leads the way
to hydration!

WATER SOURCE HYDRATING TONER

Water Source Hydrating Toner soothes the skin, softens the cuticles, thus preparing the skin to better absorb the benefits of other care products.

This hydrating toner contains sodium hyaluronate, a natural element with strong hydrating properties, that helps the skin to absorb more moisture, diminishing wrinkles and smoothing out fine lines. Betaine, a naturally occurring amino-acid act to provide long-lasting moisture and protect the cell membranes, maintaining balanced hydration and soothing dehydrated skin instantly. The red algae extract locks-in moisture effectively thus leaving the skin feeling supple throughout the day.

Ingredients: MossCell Tec™, betaine, sodium hyaluronate, red algae extract.

How to use: Soak a cotton pad with the moisturizing toner, and apply from the base of the neck to the entire face. Apply twice daily use, day and night.

WATER SOURCE HYDRATING SERUM

Water Source Hydrating Serum is light and aqueous, and is easily, rapidly absorbed by the skin, effectively resolving the problems caused by dehydration such as dryness, dullness, enlarged pores and fine lines.

A blend of betaine, red algae extract and various fruit extracts such as Citrullus Lanatus (watermelon rind), Pyrus Malus (apple) and Lens Esculenta (lentil), nourishes the skin, help strengthen the skin cells' water-locking function, and bring immediate relief and hydration to the skin -- improving roughness and reducing fine lines. In addition, it also contains sodium hyaluronate, an important substance for hydration, which helps the skin absorb more moisture and reduce fine lines and the appearance of wrinkles.

Ingredients: MossCell Tec™, betaine, mixed fruit extracts, sodium hyaluronate, red algae extract.

How to use: Apply the essence to the face and neck, and gently massage until fully absorbed. Use after cleansing every morning and evening.

WATER SOURCE HYDRATING MOISTURIZER

Water Source Hydrating Moisturizer deeply moisturizes the skin, while maintaining long-term hydration, leaving the skin moisturised all day long. Its light and velvety texture is easily absorbed, non-greasy and moisturising. It also helps the skin resist UVA and UVB, and prevent the formation of wrinkles.

Betaine's unique moisturising mechanism helps to regulate water balance in cells, applies long-lasting moisturising effects and improves dry, fragile skin barriers. Acetyl glucosamine and citrus peel extract moisturise while improving our skin's firmness and elasticity.

Ingredients: MossCell Tec™, betaine, citrus peel extract, acetyl glucosamine.

How to use: Apply the moisturizer to the face, neck and decollete, and massage gently from bottom to top. Use twice daily, day and night.

WATER SOURCE HYDRATING DEEP PORE SCRUB

Water Source Deep Pore Scrub contains natural walnut shell grains that absorb dirt and oil from the pores, removing blackheads and ageing keratin, helping to even out the skin tone and brighten our skin. This deep-cleansing scrubs has added moisturising elements that hydrates while cleansing, leaving the skin feeling soft and not taut after the wash.

It is rich in olive oil esters, which contains a variety of vitamins to give the skin prolonged hydration, especially for those with dry and sensitive skin. At the same time, rich shea butter serves to doubly boost the hydrating effect.

Ingredients: MossCell Tec™, olive oil esters, shea butter.

How to use: Wet the face, then gently massage the scrub over the entire face with your fingertips, avoiding the eye areas. Finally, rinse with water. It is recommended to use 2 to 3 times a week.

WATER SOURCE HYDRATING SLEEPING MASK

Water Source Moisturizing Sleep Mask is composed of tiny capsules of millions of molecular weight hyaluronic acid compressed using high-end encapsulated HA technology. This technology allows the mask to penetrate the skin's dermis (inner layer) and gradually delivering moisture in the cycle of 12 hours, providing moisture to the muscle base, and rejuvenating skin. It fully rehydrates our skin through the night, resulting in refreshed, dewy complexion in the morning.

The natural hydration element sodium hyaluronate can bind-up to 1000 times its own weight in water, infusing sufficient moisture and nutrients for the synthesis of collagen and elastin, thus smoothing out wrinkles and shrinking pores. Also, the complex of fruit extracts in the mask can further boost the skin's natural moisturizing barrier, enhance its absorption of moisture and nutrients, and instantly rehydrate the skin. Another key ingredient, sugar squalane, forms a natural protective film on the skin, effectively acting as an emollient to rejuvenate our skin.

Ingredients: H2 Zeta technology, Encapsulated HA technology, sodium hyaluronate, mixed fruit extracts, sugar squalene.

How to use: Apply a thick layer of moisturizing mask on face and neck before going to bed. Rinse off with water the next morning. It is recommended to use 2 to 3 times a week. If critically dehydrated skin, it can be used daily.
